

When you arrive at Jungle please select your group leader and come to the registration window with all your players waiver and either all cash or all credit cards. Please NO individuals paying. We need to make this process go smooth and speedy to get you on the field and playing you will be asked these questions to ensure a speedy process.

1. Only one representative from the group will come to the window with the required 15 player minimum waivers completely filled out and be prepared to pay for the 15 player minimum at this time. You will need to know how many are self equipped and how many are rental players. (If you have more you can bring more than to the window and pay for them at the same time)
2. You will hand the waivers to the registration window and the staff will ask you if this is all your players. If so, they will complete the registration process. You will receive only 1 wristband for each player. Additional players may arrive later but they will have to turn in a waiver, pay separately and then receive a wristband.
3. The staff will then ask How many self equipped players do you have?
4. The staff will then ask how many rental packages do you need? (rental package B is required if you are not buying additional field paint)
5. The staff will then ask if you will need additional paint? Remember, if you are using our guns you MUST purchase our paint.
6. You will then be asked if your want to rent any additional equipment (such as, uniform, pod packs, etc.)
7. The staff will then tell you the amount due (your \$250.00 deposit is deducted from the total and is noted on the receipt).
8. You can pay by cash, which is preferred, or by credit/Debt card or a combination of one card and cash to pay the difference. The private group organizer must have collected the cash from their group prior to coming to the window. If you come to the window with all your group and the waivers and/or money have not been collected you will be asked to step away from the window and get organized before coming back up to registration.

*A player from the group may come up after to purchase any items they may need.
